

October 13, 2020

Delivered by RESS

Ms. Kirsten Walli, Board Secretary Ontario Energy Board P.O. Box 2319, 27th Floor 2300 Yonge Street Toronto, ON, M4P 1E4

Dear Ms. Walli,

Re: PUC Distribution Inc. – Application for 2021 Electricity Distribution Rates EB-2020-0051

PUC Distribution ("PUC") is pleased to submit to the Ontario Energy Board its 2021 electricity distribution rate application in accordance with the Board's Directive and Guidance for 2021 Incentive Rate-setting Mechanism Distribution Rate Applications guide as issued May 14, 2020 under the 4th Generation Incentive Rate-setting plan under the Price Cap IR method.

By way of this application, PUC is seeking approval for distribution rates effective May 1, 2021. An electronic copy of the application has been submitted through RESS.

The primary contact for this Application and ICM Rate Application is Mark Faught, Director, Finance. The applicant's legal counsel is John Vellone, Partner, Borden Ladner Gervais LLP, phone 416-367-6730 and email jvellone@blg.com. PUC Distribution's confirmed email address is www.ssmpuc.com.

If additional information is required please contact me using the information provided below.

Sincerely

K. Mark Faught, CPA, CMA

Director, Finance PUC Distribution Inc.

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 4 of 15

MANAGER'S SUMMARY

1. Introduction

PUC Distribution Inc. ("PUC") hereby applies to the Ontario Energy Board (the "OEB") for approval of its proposed distribution rates and other charges, effective May 1, 2021. PUC has prepared the 2021 4th Generation Incentive Rate-Setting Mechanism application consistent with Chapter 3 of the filing requirements for electricity distribution rate applications as revised by the OEB on May 14, 2020.

This Application will affect all ratepayers in PUC's service territory. PUC requests that, pursuant to Section 34.01 of the Board's Rules of Practice and Procedure, this proceeding be conducted by way of written hearing. In the event that the Board is unable to provide a Decision and Order in this Application for implementation by the Applicant as of May 1, 2021, PUC requests that the Board issue an Interim Rate Order declaring the current Distribution Rates and Specific Service Charges as interim until such time as the 2021 rates are approved. In the event that the effective date does not coincide with the Board's decided implementation date for 2021 Distribution Rates and Charges, PUC requests to be permitted to recover the incremental revenue from the effective date to the implementation date.

The OEB requires a certification by the Chief Executive Officer (CEO), or Chief Financial Officer (CFO), or equivalent. The Application must include a certification that the distributor has robust processes and internal controls in place for the preparation, review, verification and oversight of the account balances being disposed, consistent with the certification requirements in Chapter 1 of the filing requirements. This Certification has been included as Appendix "A".

PUC has used the most current version of the OEB's 2021 IRM Rate Generator Model and Global Adjustment Analysis Workform in the preparation of this filing and confirms the accuracy of the billing determinants and Trial Balance data for the prepopulated Models. A copy of PUC's current 2020 Tariff of Rates and Charges, for rates effective May 1, 2020 and implemented November 1, 2020, is included as Appendix "B". The proposed 2021 Tariff of Rates and Charges is included as Appendix "C".

The completed 2021 IRM Rate Generator Model, in PDF format, is included as Appendix "D". PUC understands that OEB Staff will update the Model for adjusted Retail Transmission Service Rates and parameters for determining the Annual Adjustment Mechanism when established by the Board. PUC is applying for Group 1 – Deferral and Variance Account disposition, including final disposition of USofA accounts 1588 and 1589. PUC has completed the 2021 GA Analysis Workform as required in the Filing Requirements and included it as Appendix "E". The 2021 IRM Checklist is provided as Appendix "F".

Specifically, PUC's Application hereby applies for an Order or Orders approving distribution rates updated and adjusted in accordance with the Chapter 3 Requirements as follows:

- An Annual Adjustment Mechanism of 1.7% applied to existing distribution rates determined by the OEB's calculated inflation factor for incentive rate setting under the Price Cap IR Price Escalator of 2.0%, reduced by the Productivity Factor of 0%, and further reduced by PUC's Stretch Factor Value of 0.3% for Group III utilities;
- Continuation of the Rate Rider for Embedded Generation Adjustment as approved in the 2018 COS Application [EB-2017-0071];
- Continuation of the Rate Rider for Forgone Revenue for the deferred implementation of PUC's May 1, 2020 rates;
- Disposition of Group 1 Deferral/Variance Accounts for the year 2017 (final), 2018 and 2019;
- Adjustment to the Retail Transmission Service Rates as provided in Guideline (G-2008-0001) on Retail Transmission Service Rates – October 22, 2008 (revision 4.0 June 28, 2012);
- Continuation of the Wholesale Market Service Rate, Capacity Based Recovery (CBR) Class B, Rural Rate Protection Charge, the Standard Supply Service Charge, Specific Service Charges, MicroFIT Service Charge, Retail Service Charges, the Smart Metering Entity Charge and Loss Factors as approved in PUC's 2018 COS Application (EB-2017-0071);

Figure 1 below summarizes PUC's 2021 proposed distribution rates, as compared to current approved rates.

Figure 1 – 2021 Proposed Distribution Rates

| Rate Class | Current MFC | Current Volumetric Charge | Price Cap Index | Proposed MFC | Proposed Volumetric Charge |
|---------------------------------|-------------|---------------------------------|--------------------|-----------------|----------------------------------|
| Residential | \$32.13 | 0.0000 | 1.70% | \$32.68 | 0.0000 |
| General Service Less than 50 kW | \$21.27 | 0.0255 | 1.70% | \$21.63 | 0.0259 |
| General Service 50 to 4,999 kW | \$117.45 | 6.9056 | 1.70% | \$119.45 | 7.0230 |
| Unmetered Scattered Load | \$13.02 | 0.0393 | 1.70% | \$13.24 | 0.0400 |
| Sentinel Lighting | \$3.65 | 34.0175 | 1.70% | \$3.71 | 34.5958 |
| Street Lighting | \$1.40 | 9.1619 | 1.70% | \$1.42 | 9.3177 |
| MicroFIT | \$4.55 | - | - | \$4.55 | - |

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 6 of 15

2. Annual Adjustment Mechanism

The annual adjustment mechanism is defined as the annual percentage change in the inflation factor less an X-Factor (i.e. productivity factor and stretch factor). As part of the supplemental report on the RRFE (Renewed Regulatory Framework for Electricity Distributors) the Board will establish the final inflation factor, productivity factor and stretch factor to apply to distributors for 2021 rate setting. The Rate Generator Model initially includes rate-setting parameters from the preceding year as a placeholder.

PUC has populated the IRM Rate Generator Model using the inflation factor of 2.00%, productivity factor of 0.00% and a stretch factor of 0.30% (representing the third cohort) for a total price index adjustment of 1.70%. PUC understands the Board will update PUC's Rate Generator Model with the final parameters as established.

3. Revenue-to-Cost Ratio Adjustment

PUC is not proposing to adjust the revenue-to-cost ratios and therefore has not completed the 2021 IRM Revenue to Cost Ratio Adjustment Model.

4. Rate Design for Residential Electricity Customers

PUC transitioned to a 100% fixed monthly distribution charge for Residential customers in its 2020 IRM Rate Application.

5. Retail Transmission Service Rates

PUC is applying for an increase in the network service rates in accordance with the OEB guidelines Electricity Distribution Retail Transmission Service Rates ("RTSR"), Revision 4.0 (G-2008-0001) issued June 28, 2012. The increase is calculated using the 2021 IRM Rate Generator Model issued by the OEB that applies historical wholesale and retail consumption to current and future wholesale and retail rates.

Consistent with prior years, PUC's customers are not subject to the retail connection transmission service rates because PUC receives power at 115kV and owns the transformer equipment to step down to distribution levels.

PUC understands that the Board will adjust the RTSRs in each distributor's rate application model once the approved Uniform Transmission Rates are determined. The most recent billing determinants, reported in the 2019 year-end RRR filings under 2.1.5 Performance Based Regulation, were used for the calculation of the forecasted RTRS rates.

A summary of the current and proposed Retail Transmission Rates is shown in Figure 3 below:

Figure 3 – Forecasted 2021 RTSR – Network Rates

| | Current RTSR - Network (\$) | Proposed RTSR - Network (\$) |
|--|--------------------------------|---------------------------------|
| Residential (kWh) | 0.0064 | 0.0064 |
| General Service <50 kW (kWh) | 0.0060 | 0.0060 |
| General Service > 50kW (kW) | 2.4136 | 2.4114 |
| General Service >50 kW Interval Metered (KW) | 3.0355 | 3.0328 |
| USL (kWh) | 0.0060 | 0.0060 |
| Sentinel Lighting (kW) | 1.8295 | 1.8279 |
| Street Lighting (kW) | 1.8205 | 1.8189 |

6. Proposed Group 1 Deferral and Variance Account Disposition

The Board issued its Report on Electricity Distributor's Deferral and Variance Account Review Initiative ("EDDVAR Report") on July 31, 2009 (EB-2008-0046). The EDDVAR Report directs electricity distributors to review and dispose Group 1 deferral and variance audited account balances, which do not require a prudence review, in an IRM Rate Application if the pre-set disposition threshold is exceeded. The Board established a disposition threshold at \$0.001/kWh.

PUC has completed the Deferral and Variance Accounts schedule, Tab "3. Continuity Schedule", in the 2021 IRM Rate Generator Model and has reconciled December 31, 2019 audited balances with the June 1, 2020 RRR Filing. PUC confirms the accuracy of the billing determinants included in Tab "4. Billing Det. for Def-Var" as those found in PUC's most recently reported RRR filing, E2.1.5.4 – Demand and Revenue.

For the 2017 period, PUC did not claim disposition of accounts 1588 and 1589 in its 2019 IRM Rate Application [EB-2018-0219]. In addition, for the 2018 period, PUC did not exceed the threshold test of \$0.001 per kWh and did not apply for disposition for Group 1 accounts in its 2020 IRM Rate Application [2019-0170]. As a result, PUC's continuity schedule includes 2017 (accounts 1588, 1589), 2018 and 2019 deferral and variance accounts (1551, 1580, 1584, 1588 and 1589).

Figure 4 provides the detailed reconciliation of the Deferral and Variance accounts with PUC's RRR filing as at December 31, 2019:

Figure 4 – Reconciliation of Deferral and Variance Account Balances

| Account Description | USoA# | Total Principal (Dec 31, 2019) | Total Interest (Dec 31, 2019) | Total Principle & Interest | 2.1.7 RRR Balances (Dec, 31, 2019) | Variance |
|---|-------|---|----------------------------------|-------------------------------|---------------------------------------|-----------------------|
| Smart Metering Entity Charge Variance Account | 1551 | (\$24,621) | \$799 | (\$23,822) | (\$23,822) | (\$ |
| RSVA - Wholesale Market Service Charge | 1580 | (\$302,958) | (\$45,974) | (\$348,932) | (\$405,735) | \$56,8 |
| Variance WMS - Class B | 1580 | (\$56,255) | (\$549) | (\$56,804) | \$0 | |

| | 1580 | Balance in 2.1.7 filing separately in DVA Wo | orkform. | | | (\$56,80 |
| | 1588 | Class A consumption | | | 2017 | \$395,9 |
| | | Class A consumption | | | 2018 | \$875,0 |
| | | Class A consumption Interest recalculated | included in GA Non-R | PP Class B variance | 2019 Interest | \$1,412,8 (\$15,51 |
| | | interest recalculated | | | interest | \$2,668,3 |
| | | | | | - | \$2,000,5 - |
| | 1589 | Class A consumption | included in GA Non-R | PP Class B variance | 2017 | (\$395,93 |
| | | Class A consumption | included in GA Non-R | PP Class B variance | 2018 | (\$875,09 |
| | | Class A consumption | included in GA Non-R | PP Class B variance | 2019 | (\$1,412,85 |
| | | Interest recalculated | | | Interest | (\$60,48 |
| | | | | | - | (\$2,744,36 |
| | | | | | | |
| | 1568 | LRAM not requested | tor disposition | | | \$307,6 |

PUC confirms that all year end balances agree, except as explained below, in total with both its annual filings required under the RRRs and with PUC annual audited financial statements for 2019. No adjustments to previously approved balances on a final basis have been made.

The variance in cell "BW23" is a result of reclassifying the costs for Capacity Based Recovery ("CBR"). As of the 2018 RRR filing, these costs were included in Account 1580, however, the costs have now been segregated in the appropriate sub-accounts for Class A and Class B in the Model. Combining these two segregated accounts eliminates the variance.

The variances in cell "BW28" – RSVA Power and "BW29" – RSVA – Global Adjustment are a result of reallocating Class A customers as provided in the reconciliation of the accounts 1588 and 1589.

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 9 of 15

As part of PUC's confirmation of the accounting guidance provided in the OEB's letter dated February 21, 2019, "Accounting guidance related to Accounts 1588 and 1589" PUC's review determined that Class A customers were included in the accounting for 1589 variance. These corrections have been made in the Tab 3. Continuity Schedule of the 2021 IRM Rate Generator Model and are shown in Appendix "E" – 2021 GA Analysis Workform. The principal amounts have been reallocated between 1588 and 1589 and the remaining variance is due to recalculated interest amounts as a result of these reallocations.

The balance in Account 1568 Lost Revenue Adjustment Mechanism Variance Account (LRAMVA) reported under 2.1.7 RRR as of December 31, 2019 was not populated in the Continuity Schedule and is not proposed for recovery with this Rate Application. With the continued collection of LRAMVA rate riders until April 30, 2020, the amount for disposition is immaterial and will be claimed on a future IRM or Cost of Service application.

1595 Analysis Workform

There is an immaterial balance in sub-account 1595 (2016) of \$189 and 1595 (2018) and (2019) residual balances are not yet eligible as two full years have not yet passed. Therefore, PUC will defer disposition of 1595 (2016) until such time as the remaining balances are claimed. Accordingly, the disposition in the 1595 Workform has not been filed as no accounts are being disposed.

Threshold Test

For the 2019 period, the total claim in the Group 1 accounts total \$2,426,588 (including Account 1589 – Global Adjustment) which leads to a threshold value test of \$0.0038. This exceeds the materiality threshold of +/-\$0.001/kWh as defined in the Filing Requirements. The balance is driven primarily by the of the RSVA – Power variance from 2017, 2018 and 2019.

| Total Claim (including Account 1568) | \$2,426,588 |
|--|-------------|
| Total Claim for Threshold Test (All Group 1 Account) | \$2,426,588 |
| Threshold Test (Total Claim per kWh) | \$0.0038 |

Figure 5 provides the amounts proposed for the disposition of Group 1 accounts.

Figure 5 – Proposed Disposition of Deferral and Variance Accounts

| Group 1 Accounts | USoA# | Principal | Projected Interest | Total Claim for Disposition |
|---|-------|-------------|-----------------------|--------------------------------|
| Smart Metering Entity Charge Variance | | | | |
| Account | 1551 | (\$24,621) | \$513 | (\$24,109) |
| RSVA - Wholesale Market Service Charge | 1580 | (\$359,212) | (\$50,698) | (\$409,910) |
| RSVA - Retail Transmission Network Charge RSVA - Power (excluding Global | 1584 | \$157,068 | (\$4,333) | \$152,735 |
| Adjustment) | 1588 | \$2,114,616 | \$44,479 | \$2,159,095 |
| RSVA - Global Adjustment | 1589 | \$466,804 | \$81,974 | \$548,777 |
| Total - Group 1 Accounts | | \$2,354,654 | \$71,935 | \$2,426,588 |

PUC has used the same allocation methodology as used in previous proceedings to assign Group 1 balances to its rate classes. In consideration of the recommendation outlined in the Filing Requirements along with assessing bill impacts, PUC has proposed a one-year disposition period. Rate rider calculations can be found in the electronic copy of the 2021 IRM Rate Generator Model that has been submitted with this Application. A print version of the Model has been provided in Appendix "D" to this Application.

7. Global Adjustment ("GA")

Distributors must provide a description of their settlement process with the IESO, in accordance with Chapter 3 of the Board's Filing Requirements for Electricity Distribution Rate Applications. Distributors must specify the GA rate used when billing customers for each rate class, itemize the process for providing consumption estimates to the IESO, and describe the true-up process to reconcile estimates of RPP and non-RPP consumption once actuals are known.

Starting with 2018 rate applications, distributors are also required to complete the GA Analysis Workform which validates the principal balance by recalculating the GA variance based on the monthly non-RPP consumption and corresponding GA revenues and costs.

GA Analysis Workform

Distributors must complete the GA Analysis Workform to determine whether the annual balance in Account 1589 is reasonable. The Workform compares the General Ledger principal balance to an expected principal balance based on monthly GA volumes, revenues, and costs. Distributors may provide reconciling items to explain and reduce the discrepancy between the actual and expected balance. Any unexplained discrepancies should be calculated separately for each

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 11 of 15

calendar year and any unexplained discrepancy for each year greater than +/- 1% of total annual IESO GA charges will be considered material.

PUC has completed the GA Analysis Workform as provided in Appendix "E". A full historical review was conducted for accounts 1588 and 1589 accounts. It was determined that PUC had included the Class A participant consumption in the calculation of the Non-RPP GA cost which affected the variance allocation between 1588 and 1589. These allocations have now been corrected and included as Principal adjustments in Tab 3 — Continuity Schedule of the IRM Rate Generator Model.

8. Settlement Process Overview

On February 21, 2019, the OEB released a letter entitled Accounting guidance related to Accounts 1588 and 1589. The direction provided by the OEB staff was a change in practice but not overall theory to PUC's current settlement process. PUC has worked diligently to finalize its internal processes to be compliant with OEB direction and the balances reported for this Rate Application.

The following provides a description of PUC's settlement process and GA processes for RPP and Non-RPP amounts.

IESO Settlement Process

- i. For GA, PUC uses the 1st Estimate for billing customers in all rate classes, except its Class A customers. PUC's Class A customers are billed using their individually calculated GA rate
- ii. IESO monthly settlement is submitted by the 4th business day after the calendar month end.
- iii. Consumption actuals PUC uses actual meter readings from meter data repository system. Conventional Meters are used for billing Tiered pricing customers and Smart Meters used for billing customers Time of Use ("TOU") pricing. Data is extracted monthly and customer consumption is segregated between RPP and non-RPP consumption using billing codes.
- iv. IESO settlement of RPP From the extracted data, actual RPP kWh and revenues are split between RPP categories (TOU on/off/mid or Tier 1, Tier 2). PUC's billing system also tracks what revenue would have been for each RPP customer bill based on weighted average pricing. In addition, kWh's are tracked by calendar month so the effective GA rates can be determined. For RPP settlement purposes, revenue associated with RPP pricing is compared to tracked revenue that would have been billed using weighted average pricing and effective final GA rate and the difference is submitted to the IESO for settlement.
- v. Embedded Generation the settlement with IESO relating to embedded generation (RESOP, FIT, microFIT) is done based on contract price versus market price monthly.

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 12 of 15

Non-RPP Class A Customers

Class A Customers pay GA based on their percentage contribution to the top five peak Ontario demand hours (i.e. peak demand factor) over a year-long period. PUC settles GA costs with Class A customers based on actual GA prices, and therefore cannot allocate GA variance balances to these customers for the period that customers were designated Class A.

In accordance with the Chapter 3 Filing Requirements last updated July 12, 2018, distributors who serve Class A customers must allocate the recovery of the GA variance balance based on their settlement process with the IESO for any residual GA variance balances that accrued for Class A transition customers (i.e. customers who transitioned from Class B to A or Class A to B during the period).

PUC has served five (5) Class A participants from July 1, 2017 to December 31, 2019. The breakdown of their consumption has been provided in "Tab. 6. Class A Consumption Data" of the IRM Rate Generator Model. The data provides the number of customers that transitioned each year in the table.

Commodity Accounts 1588 and 1589

Account 1588 – RSVA Power is used to record net differences between power sales billed and accrued (i.e. unbilled revenue) to RPP and non-RPP customers, and power costs accrued and paid to the IESO, host distributor and/or embedded generators.

Account 1589 – RSVA GA is used to record net differences between GA billed and accrued (i.e. unbilled revenue) to Class B non-RPP customers, and GA costs accrued and paid to the IESO, and/or host distributor relating to Class B non-RPP customers.

Revenue and cost amounts are recorded in distributors' power and GA commodity pass-through revenue and cost of power accounts. Billed amounts are tracked in accounts 4006-4055 depending on customer classifications. IESO charges are tracked in account 4505, with non-RPP Class B customers tracked in 4707.

PUC uses the IESO reconciliation and consumption data as the basis for its monthly accounting accrual journal entries and subsequently reverses these accruals and records the actual IESO invoice when received. PUC settles with the IESO on a billed basis; therefore, accruals are required for unbilled consumption. Entries are recorded monthly using consumption data and estimates based on historical data. The initial RPP settlement and unbilled energy estimates are updated once the final consumption and GA rates becomes available. The general ledger is updated with the final amounts and the results of the true-up process. At year end all final consumption, billing and costs are reviewed and any final true-up entries are recorded. Unbilled and actual cost of power are trued-up to actual.

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 13 of 15

The balance in the RSVA-Power account 1588 is due to differences between the GA 2nd Estimate rate, used to settle with the IESO, and the GA actual rate invoiced by the IESO. In addition, the 1588 balance reflects settlement variances between the energy rates billed to customers and the energy rates invoiced by IESO.

The balance in the RSVA-GA account 1589 is due to differences between the GA revenue amounts billed to Non-RPP consumers and the calculated GA expense for Non-RPP consumers.

PUC confirms that is uses accrual accounting in its GA settlement processes and has implemented the Board's new Account 1588 & 1589 accounting guidance, including a review of historical balances (2017-2019). During the implementation process, PUC reviewed its historical balances and identified process changes regarding the IESO billed charge type (CT 148 GA) cost allocation between RPP and Non-RPP consumption. PUC implemented a process to acquire more accurate billing information to assist in the determination of RPP and Non-RPP portion of the GA cost and the reconciliation of the commodity account balances. As noted above, PUC require some adjustments for accounting for Class A customers in Account 1588 and 1589. These have been reflected in the Continuity Schedule in PUC's IRM Rate Generator Model. These adjustments will be posted in the 2020 general ledger. PUC's processes now align with the Board's proposed methodology.

9. Wholesale Market Participants

PUC does not have any Wholesale Market Participant customers.

10. LRAM Variance Account (LRAMVA)

In accordance with the Board's Guidelines for Electricity Distributors CDM, at a minimum, distributors must apply for disposition of the balance in the LRAMVA at the time of their Cost of Service Rate Applications. Distributors may apply for the disposition of the LRAMVA balance in IRM Rate Applications if the balance is deemed significant by the applicant. All requests for disposition of the LRAMVA must be made together with carrying charges.

PUC proposes no disposition of Account 1568 LRAMVA balance with this Rate Application.

11. Tax Changes

In its Supplemental Report of the Board on 3rd Generation Incentive Regulation for Ontario's Electricity Distributors [EB-207-0673], the OEB determined a 50/50 sharing of the impact of currently known legislation tax changes as applied to the tax level reflected in the Boardapproved base rates for distributors is appropriate. The tax allocation will be allocated to

PUC Distribution Inc. 2021 IRM Application EB-2020-0051 Filed: October 13, 2020 Page 14 of 15

customer rate classes based on the last Board approved COS distribution revenue. The Board ahs determined that currently known tax changes from the level reflected in the Board-approved base rates will be reflected in the IRM adjustments.

PUC has completed the OEB's 2021 IRM Rate Generator Model (Tab "8. STS-Tax Change" and Tab "9. Shared Tax-Rate Rider") and calculated annual tax changes allocated to customer rate classes based on the 2018 Board Approved billing determinants and distribution rates (2018 COS file number EB-2017-0071). As there is no tax change from the 2018 year of the cost of service, the Incremental Tax Savings is \$nil.

12. Z-Factor Claims/ Incremental Capital Module (ICM)

PUC is not proposing to seek recovery for a Z-Factor claim or utilize the ICM option.

13. Treatment of Costs for "eligible investments"

PUC submitted its 5-year Distribution System Plan ("DSP") with its 2018 Cost of Service Rate Application. As referenced within Section 2.3.9 of the DSP, PUC's distribution system is capable of accommodating REG and no capital investments are needed for capacity upgrades to facilitate the connection of renewable energy generation plant at this time. Therefore, no requirement to establish deferral accounts for these types of costs or recovery of costs is requested or required.

14. Conservation and Demand Management Costs for Distributors

PUC's CDM programs are funded through the IESO and therefore confirms that no CDM costs are included in distribution rates.

15. Off-Ramps

An off ramp is based on a pre-defined set of conditions under which a plan based on any of the three rate-setting methods would be terminated or modified before its normal end-of-term date due to excessive over or under earnings. In this Rate Application, PUC is not applying for an off-ramp.

16. Proposed Distribution Rates and Bill Impacts

PUC's 2021 Proposed Tariff of Rates and Charges can be found in Appendix "C". Figure 6 below summarizes the monthly bill impacts by customer class.

Figure 6 – Bill Impact Summary

| Class | Avg Mor Volum | • | RPP/Non- | Total Current | Total Proposed | Total Bill | Total Bill Impact |
|---------------------------------|------------------|-----|----------|------------------|-------------------|-------------|----------------------|
| | kWh | kW | RPP | Bill | Bill | Impact (\$) | (%) |
| Residential | 750 | 0 | RPP | \$115.10 | \$115.00 | (\$0.10) | (0.09%) |
| General Service Less than 50 kW | 2,000 | 0 | RPP | \$294.12 | \$293.60 | (\$0.52) | (0.18%) |
| General Service 50 to 4,999 kW | 57,220 | 145 | Non-RPP | \$11,184.37 | \$12,104.59 | \$920.22 | 8.23% |
| Unmetered Scattered Load | 3,600 | 0 | Non-RPP | \$880.94 | \$800.37 | (\$0.56) | (0.07%) |
| Sentinel Lighting | 50 | 1 | Non-RPP | \$53.73 | \$53.99 | \$0.25 | 0.47% |
| Street Lighting | 199,852 | 585 | Non-RPP | \$59,549.42 | \$62,981.41 | \$3,432.00 | 5.76% |

17.Conclusion

In summary, total bill impacts are well below the rate mitigation threshold and PUC considers the proposed distribution rates and applicable disposition to be both reasonable and prudent.

APPENDIX A

Certificate of Evidence

CERTIFICATION OF EVIDENCE

As Vice President, Finance & Corporate Support of PUC Distribution Inc., I certify that to the best of my knowledge:

- a) the evidence filed in PUC's 2021 IRM application is accurate, complete and consistent with the requirements from Chapter 3 of the *Filing Requirements for Transmission and Distribution Rate Applications* revised on May 14, 2020.
- b) the accuracy of the billing determinants for pre-populated models; and
- c) that robust processes and internal controls are in place for the preparation, verification and oversight of variance account balances.

Respectfully submitted,

Kelly McLellan

Vice President, Finance & Corporate Support

Dated at Sault Ste. Marie, Ontario, this 13th of October,

2020

APPENDIX B

2020 Current Tariff of Rates and Charges

Effective May 1, 2020

Amended to Reflect the Implementation Date of November 1, 2020 (unless indicated otherwise)

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2019-0170

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less where the electricity is used exclusively in a single family unit, non-commercial. This can be a separately metered living accommodation, town house, apartment, semi-detached, duplex, triplex or quadruplex with residential zoning. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

MONTHLY RATES AND CHARGES - Delivery Component

| Service Charge | \$ | 32.13 |

EB-2019-0170

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification applies to a non residential account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

EB-2019-0170

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification applies to a non residential account whose average monthly peak demand used for billing purposes over the past 12 months is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the Distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

SENTINEL LIGHTING SERVICE CLASSIFICATION

This classification applies to safety/security lighting with a Residential or General Service customer. This is typically exterior lighting, and unmetered. Consumption is estimated based on the equipment rating and estimated hours of use. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

EB-2019-0170

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

| One-time charge, per retailer, to establish the service agreement between the distributor and the retailer | \$ | 102.00 |
|---|----------|-----------|
| Monthly Fixed Charge, per retailer | \$ | 40.80 |
| Monthly Variable Charge, per customer, per retailer | \$/cust. | 1.02 |
| Distributor-consolidated billing monthly charge, per customer, per retailer | \$/cust. | 0.61 |
| Retailer-consolidated billing monthly credit, per customer, per retailer | \$/cust. | (0.61) |
| Service Transaction Requests (STR) | | |
| Request fee, per request, applied to the requesting party | \$ | 0.51 |
| Processing fee, per request, applied to the requesting party | \$ | 1.02 |
| Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail | | |
| Settlement Code directly to retailers and customers, if not delivered electronically through the | | |
| Electronic Business Transaction (EBT) system, applied to the requesting party | | |
| Up to twice a year | \$ | no charge |
| More than twice a year, per request (plus incremental delivery costs) | \$ | 4.08 |
| Notice of switch letter charge, per letter (unless the distributor has opted out of applying the charge as per the Ontario Energy Board's Decision and Order EB-2015-0304, issued on February 14, 2019) | \$ | 2.04 |

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

| Total Loss Factor - Secondary Metered Customer < 5,000 kW | 1.0481 |
|---|--------|
| Total Loss Factor - Primary Metered Customer < 5 000 kW | 1.0385 |

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2020-0051

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less where the electricity is used exclusively in a single family unit, non-commercial. This can be a separately metered living accommodation, town house, apartment, semi-detached, duplex, triplex or quadruplex with residential zoning. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification applies to a non residential account whose average monthly peak demand used for billing purposes over the past 12 months is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the Distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

SPECIFIC SERVICE CHARGES

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

Effective May 1, 2021

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

PUC Distribution Inc. TARIFF OF RATES AND CHARGES

Effective May 1, 2020

Amended to Reflect the Implementation Date of November 1, 2020 (unless indicated otherwise)

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

EB-2019-0170

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less where the electricity is used exclusively in a single family unit, non-commercial. This can be a separately metered living accommodation, town house, apartment, semi-detached, duplex, triplex or quadruplex with residential zoning. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

GENERAL SERVICE LESS THAN 50 KW SERVICE CLASSIFICATION

This classification applies to a non residential account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification applies to a non residential account whose average monthly peak demand used for billing purposes over the past 12 months is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the Distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

| One-time charge, per retailer, to establish the service agreement between the distributor and the retailer | \$ | 102.00 |
|--|----------|-----------|
| Monthly Fixed Charge, per retailer | \$ | 40.80 |
| Monthly Variable Charge, per customer, per retailer | \$/cust. | 1.02 |
| Distributor-consolidated billing monthly charge, per customer, per retailer | \$/cust. | 0.61 |
| Retailer-consolidated billing monthly credit, per customer, per retailer | \$/cust. | (0.61) |
| Service Transaction Requests (STR) | | |
| Request fee, per request, applied to the requesting party | \$ | 0.51 |
| Processing fee, per request, applied to the requesting party | \$ | 1.02 |
| Request for customer information as outlined in Section 10.6.3 and Chapter 11 of the Retail | | |
| Settlement Code directly to retailers and customers, if not delivered electronically through the | | |
| Electronic Business Transaction (EBT) system, applied to the requesting party | | |
| Up to twice a year | \$ | no charge |
| More than twice a year, per request (plus incremental delivery costs) | \$ | 4.08 |
| Notice of switch letter charge, per letter (unless the distributor has opted out of applying the charge as per the Ontario | \$ | |
| Energy Board's Decision and Order EB-2015-0304, issued on February 14, 2019) | φ | 2.04 |

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor - Secondary Metered Customer < 5,000 kW

1.0481
Total Loss Factor - Primary Metered Customer < 5,000 kW
1.0385

Please complete the following continuity schedule for the following Deferral/Variance Accounts. Enter information into green cells only. Please see instructions tab for detailed instructions on how to complete tabs 3 to 7. Column BV has been prepopulated from the latest 2.1.7 RRR filing.

Please refer to the footnotes for further instructions.

For all OEB-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related OEB decision.

- 1 Please provide explanations for the nature of the adjustments. If the adjustment relates to previously OEB-Approved disposed balances, please provide amounts for adjustments and include supporting documentations.
- 2 1) If the LDC's rate year begins on January 1, 2021, the projected interest is recorded from January 1, 2020 to December 31, 2020 on the December 31, 2019 balances adjusted to remove balances approved for disposition in the 2020 rate
- 2) If the LDC's rate year begins on May 1, 2021, the projected interest is recorded from January 1, 2020 to April 30, 2021 on the December 31, 2019 balances adjusted to remove balances approved for disposition in the 2020 rate decision.
- 3 The individual sub-accounts as well as the total for all Account 1595 sub-accounts is to agree to the RRR data. Differences need to be explained. For each Account 1595 sub-account, the transfer of the balance approved for disposition into Account 1595 is to be recorded in "OEB Approved Disposition" column. The recovery/refund is to be recorded in the "Transaction" column, viny vintage year of Account 1595 is only to be disposed once on a final basis. No further dispositions of these accounts are generally expected thereafter, unless justified by the distributor.

Refer to Filing Requirements for disposition eligibility of the sub-accounts. Select "yes" column BU if the sub-account is requested for disposition. Note that Accounts 1595 (2018) and (2019) will not be eligible for disposition in the 2021 rate application.

- 4 New accounting guidance effective January 1, 2019 for Accounts 1588 and 1589 was issued Feb. 21, 2019 titled Accounting Procedures Handbook Update - Accounting Guidance Related to Commodity Pass-Through Accounts 1588 & 1589. The amount in the "Transactions" column in this DVA Continuity Schedule are to equal the transactions in the General Ledger (excluding any amounts approved for disposition, which is shown separately in the "OEB Approved Disposition" columns). Any true-ups/adjustments/reversals needed to derive the claim amount must be shown separately in the "Principa" Adjustments" columns of this DVA Continuity Schedule.
- 5 RRR balance for Account 1580 RSVA Wholesale Market Service Charge should equal to the control account as reported in the RRR. This would include the balance for Account 1580, Variance WMS – Sub-account CBR Class B.

Please complete the following continuity schedule for the following Deferral/Variance Accounts. Enter information into green cells only. Please see instructions tab for detailed instructions on how to complete tabs 3 to 7. Column BV has been prepopulated from the latest 2.1.7 RRR filing.

Please refer to the footnotes for further instructions.

| Total including Account 1568 | | (540,574) | (544,683) | 0 | (3,623,446) | (4,708,703) | 52,253 | 6,966 | 0 | (42,766) | 16,453 |

For all OEB-Approved dispositions, please ensure that the disposition amount has the same sign (e.g. debit balances are to have a positive figure and credit balance are to have a negative figure) as per the related OEB decision.

Please provide explanations for the nature of the adjustments. If the adjustment relates to previously OEB-Approved disposed balances, please provide amounts for adjustments and include supporting documentations.

If the LDC's rate year begins on January 1, 2021 the projected interest is recorded from January 1, 2020 to December 31, 2020 on the December 31, 2019 balances adjusted to remove balances approved for disposition in the 2020 rate

2) If the LDC's rate year begins on May 1, 2021, the projected interest is recorded from January 1, 2020 to April 30, 2021 on the December 31, 2019 balances adjusted to remove balances approved for disposition in the 2020 rate decision.

The Individual sub-accounts as well as the total for all Account 1595 sub-accounts is to agree to the RRR data. Differences need to be explained. For each Account 1595 sub-account, the transfer of the balance approved for disposition into Account 1595 is to be recorded in "OEB Approved Disposition" column. The recoveryliferium is to be recorded in the "Transaction" column. Any vintage year of Account 1595 is only to be disposed once on a final basis. No further dispositions of these accounts are generally expected thereafter, unless justified by the distributor.

Refer to Filing Requirements for disposition eligibility of the sub-accounts. Select "yes" column BU if the sub-account is requested for disposition. Note that Accounts 1595 (2018) and (2019) will not be eligible for disposition in the 2021 rate annication.

New accounting guidance effective January 1, 2019 for Accounts 1588 and 1589 was issued Feb. 21, 2019 titled Accounting Procedures Handbook Update - Accounting Guidance Related to Commodily Pass-Through Accounts 1588 & 1589. The amount in the "Transactions" column in its DVA Continuity Schedule are to equal the transactions in the General Ledger (excluding any amounts approved for disposition, which is shown separately in the "OEB Approved Disposition" columns). Any true-ups/adjustments/evensates needed to derive the claim amount must be shown separately in the "Principal Adjustments" columns of this DVA Continuity Schedule.

Please complete the following continuity schedule for the following Deferral/Variance Accounts. Enter information into green cells only. Please see instructions tab for detailed instructions on how to complete tabs 3 to 7. Column BV has been prepopulated from the latest 2.1.7 RRR filing.

Please refer to the footnotes for further instructions.

The Individual sub-accounts as well as the total for all Account 1595 sub-accounts is to agree to the RRR data. Differences need to be explained. For each Account 1595 sub-account, the transfer of the balance approved for disposition into Account 1595 is to be recorded in "OEB Approved Disposition" column. The recoveryfierfund is to be recorded in the "Transaction" column. Any vintage year of Account 1595 is only to be disposed once on a final basis. No further dispositions of these accounts are generally expected thereafter, unless justified by the distributor.

Refer to Filing Requirements for disposition eligibility of the sub-accounts. Select "yes" column BU if the sub-account is requested for disposition. Note that Accounts 1595 (2018) and (2019) will not be eligible for disposition in the 2021 rate application.

New accounting guidance effective January 1, 2019 for Accounts 1588 and 1589 was issued Feb. 21, 2019 titled Accounting Procedures Handbook Update - Accounting Guidance Related to Commodily Pass-Through Accounts 1588 & 1589. The amount in the "Transactions" column in its DVA Continuity Schedule are to equal the transactions in the General Ledger (excluding any amounts approved for disposition, which is shown separately in the "OEB Approved Disposition" columns). Any true-ups/adjustments/evensates needed to derive the claim amount must be shown separately in the "Principal Adjustments" columns of this DVA Continuity Schedule.

Data on this worksheet has been populated using your most recent RRR filing.

If you have identified any issues, please contact the OEB.

Have you confirmed the accuracy of the data below?

Yes

If a distributor uses the actual GA price to bill non-RPP Class B customers for an entire rate class, it must exclude these customers from the allocation of the GA balance and the calculation of the resulting rate riders. These rate classes are not to be charged/refunded the general GA rate rider as they did not contribute to the GA balance.

Please contact the OEB to make adjustments to the IRM rate generator for this situation.

Threshold Test

Total Claim (including Account 1568)

Total Claim for Threshold Test (All Group 1 Accounts)

Threshold Test (Total claim per kWh) ²

Currently, the threshold test has been met and the default is that Group 1 account balances will be disposed. If you are requesting not to dispose of the Group 1 account balances, please select NO and provide detailed reasons in the manager's summary.

YES

\$2,426,588

\$2,426,588

\$0.0038

¹ Residual Account balance to be allocated to rate classes in proportion to the recovery share as established when rate riders were implemented.

 $^{^{\}rm 2}$ The Threshold Test does not include the amount in 1568.

³ The proportion of customers for the Residential and GS<50 Classes will be used to allocate Account 1551.

No input required. This worksheet allocates the deferral/variance account balances (Group 1 and Account 1568) to the appropriate classes as per EDDVAR dated July 31, 2009.

Allocation of Group 1 Accounts (including Account 1568)

Enter the number of rate classes in which there were customers who were Class A for the full year during the period the Account 1589 GA or Account 1580 CBR B balance accumulated (i.e. from the year after the balance was last disposed per #1a/1b above to the current year requested for disposition).

In the table, enter the total Class A consumption for full year Class A customers in each rate class for each year (including transition customers identified in table 3a above if they were a full year Class A customer for a particular year).

| Rate Classes with Class A Customers - Billing Determinants by Rate Class | | | |
|--|------|------|------|
| Rate Class | 2019 | 2018 | 2017 |

The purpose of this tab is to calculate the GA rate riders for all current Class B customers who did not transition between Class A and B in the period since the Account 1889 GA was last disposed. Calculations in this tab will be modified upon completion of tab 6.1a, which allocates a portion of the GA balance to transition customers, it applicable.

Effective January 2017, the billing determinant and all rate riders for the disposition of GA balances will be calculated on an energy basis (kWhs) regardless of the billing determinant used for distribution rates for the particular class (see Chapter 3, Filing Requirements, section 3.2.5.2)

| int if | Default Rate Rider Recovery Period (in months) | 12 |
|-----------|---|----|
| | Proposed Rate Rider Recovery Period (in months) | 12 |

Rate Rider Recovery to be used below

| | Total | 224,986,643 | C | 4,202,663 | 220,783,980 | 100.0% | \$484,416 | | |

This tab allocates the GA balance to transition customers (i.e Class A customers who were former Class B customers and Class B customers who were former Class A customers) who contributed to the current GA balance. The tables below calculate specific amounts for each customer who made the change. The general GA rate rider to non-RPP customers is not to be charged to the transition customers that are allocated amounts in the table below. Consistent with prior decisions, distributors are generally expected to settle the amount through 12 equal adjustments to bills.

Year the Account 1589 GA Balance Last Disposed

2016

Allocation of total Non-RPP Consumption (kWh) between Current Class B and Class A/B Transition Customers

¹ When calculating the revenue reconciliation for distributors with Class A customers, the balances of sub-account 1580-CBR Class B will not be taken into consideration if there are Class A customers since the rate riders, if any, are calculated separately.

² Only for rate classes with WMP customers are the Deferral/Variance Account Rate Riders for Non-WMP (column H and J) calculated separately. For all rate classes without WMP customers, balances in account 1580 and 1588 are included in column G and disposed through a combined Deferral/Variance Account and Rate Rider.

Notes

- 1. Regarding the small business deduction, if applicable,
 - a. If taxable capital exceeds \$15 million, the small business rate will not be applicable.
 - b. If taxable capital is below \$10 million, the small business rate would be applicable.
 - c. If taxable capital is between \$10 million and \$15 million, the appropriate small business rate will be calculated.
- 2. The OEB's proxy for taxable capital is rate base.

Calculation of Rebased Revenue Requirement and Allocation of Tax Sharing Amount. Enter data from the last OEB-approved Cost of Service application in columns C through H.

As per Chapter 3 Filing Requirements, shared tax rate riders are based on a 1 year disposition.

Columns E and F have been populated with data from the most recent RRR filing. Rate classes that have more than one Network or Connection charge will notice that the cells are highlighted in green and unlocked. If the data needs to be modified, please make the necessary adjustments and note the changes in your manager's summary. As well, the Loss Factor has been imported from Tab 2.

| Rate Class | Rate Description | Unit | Rate | Adjusted Metered kWh | Adjusted Metered kW | Applicable Loss Factor | Loss Adjusted Billed kWh |

In the green shaded cells, enter billing detail for wholesale transmission for the same reporting period as the billing determinants on Tab 10. For Hydro One Sub-transmission Rates, if you are charged a combined Line and Transformer connection rate, please ensure that both the Line Connection and Transformation Connection columns are completed. If any of the Hydro One Sub-transmission rates (column E, I and M) are highlighted in red, please double check the billing data entered in "Units Billed" and "Amount" columns. The highlighted rates do not match the Hydro One Sub-transmission rates approved for that time period. If data has been entered correctly, please provide explanation for the discrepancy in rates.

In the Green Cells below, enter all proposed rate riders/rates.
In column A, select the rate rider descriptions from the drop-down list in the blue cells. If the rate description cannot be found, enter the rate rider descriptions in the green cells. The rate rider description must begin with "Rate Rider for".
In column B, choose the associated unit from the drop-down menu.
In column C, enter the rate. All rate riders with a "\$" unit should be rounded to 2 decimal places and all others rounded to 4 decimal places.
In column B, enter the expiry date (e.g. April 30, 2020) or description of the expiry date in text (e.g. the effective date of the next cost of service-based rate order).
In column G, a sub-total (A or B) should already be assigned to the rate rider unless the rate description was entered into a green cell in column A. In these particular cases, from the dropdown list in column G, choose the appropriate sub-total (A or B). Sub-total A refers to rates/rate riders that Not considered as pass through costs (eg: LRAMVA and ICM/ACM rate riders). Sub-total B refers to rates/rate riders that are considered pass through costs.

EB-2020-0051

RESIDENTIAL SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less where the electricity is used exclusively in a single family unit, non-commercial. This can be a separately metered living accommodation, town house, apartment, semidetached, duplex, triplex or quadruplex with residential zoning. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

GENERAL SERVICE 50 TO 4,999 KW SERVICE CLASSIFICATION

This classification applies to a non residential account whose average monthly peak demand used for billing purposes over the past 12 months is equal to or greater than, or is forecast to be equal to or greater than, 50 kW but less than 5,000 kW. Class A and Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of WMS - Sub-account CBR Class B is not applicable to wholesale market participants (WMP), customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new Class B customers.

If included in the following listing of monthly rates and charges, the rate rider for the disposition of Global Adjustment is only applicable to non-RPP Class B customers. It is not applicable to WMP, customers that transitioned between Class A and Class B during the variance account accumulation period, or to customers that were in Class A for the entire period. Customers who transitioned are to be charged or refunded their share of the variance disposed through customer specific billing adjustments. This rate rider is to be consistently applied for the entire period to the sunset date of the rate rider. In addition, this rate rider is applicable to all new non-RPP Class B customers.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

UNMETERED SCATTERED LOAD SERVICE CLASSIFICATION

This classification applies to an account taking electricity at 750 volts or less whose average monthly peak demand is less than, or is forecast to be less than, 50 kW and the consumption is unmetered. Such connections include cable TV power packs, bus shelters, telephone booths, traffic lights, railway crossings, etc. The customer will provide detailed manufacturer information documentation with regard to electrical demand/consumption of the proposed unmetered load. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the Distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

SENTINEL LIGHTING SERVICE CLASSIFICATION

This classification applies to safety/security lighting with a Residential or General Service customer. This is typically exterior lighting, and unmetered. Consumption is estimated based on the equipment rating and estimated hours of use. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable. In addition, the charges in the MONTHLY RATES AND CHARGES - Regulatory Component of this schedule do not apply to a customer that is an embedded wholesale market participant.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

STREET LIGHTING SERVICE CLASSIFICATION

This classification applies to an account for roadway lighting with a Municipality, Regional Municipality, Ministry of Transportation and private roadway lighting operation, controlled by photo cells. The consumption for these customers will be based on the calculated connected load times the required lighting times established in the approved Ontario Energy Board street lighting load shape template. Class B consumers are defined on accordance with O. Reg. 429/04. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

microFIT SERVICE CLASSIFICATION

This classification applies to an electricity generation facility contracted under the Independent Electricity System Operator's microFIT program and connected to the distributor's distribution system. Further servicing details are available in the distributor's Conditions of Service.

APPLICATION

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

RETAIL SERVICE CHARGES (if applicable)

The application of these rates and charges shall be in accordance with the Licence of the Distributor and any Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, which may be applicable to the administration of this schedule.

No rates and charges for the distribution of electricity and charges to meet the costs of any work or service done or furnished for the purpose of the distribution of electricity shall be made except as permitted by this schedule, unless required by the Distributor's Licence or a Code or Order of the Ontario Energy Board, and amendments thereto as approved by the Ontario Energy Board, or as specified herein.

Unless specifically noted, this schedule does not contain any charges for the electricity commodity, be it under the Regulated Price Plan, a contract with a retailer or the wholesale market price, as applicable.

It should be noted that this schedule does not list any charges, assessments, or credits that are required by law to be invoiced by a distributor and that are not subject to Ontario Energy Board approval, such as the Global Adjustment and the HST.

Retail Service Charges refer to services provided by a distributor to retailers or customers related to the supply of competitive electricity.

Effective May 1, 2020

This schedule supersedes and replaces all previously approved schedules of Rates, Charges and Loss Factors

ED 2020 0054

| | | EB-2020-0051 |
|---|----------|--------------|

LOSS FACTORS

If the distributor is not capable of prorating changed loss factors jointly with distribution rates, the revised loss factors will be implemented upon the first subsequent billing for each billing cycle.

Total Loss Factor - Secondary Metered Customer < 5,000 kW 1.0481

Total Loss Factor - Primary Metered Customer < 5,000 kW 1.0385

The bill comparisons below must be provided for typical customers and consumption levels. Bill impacts must be provided for residential customers consuming 750 kWh per month and general service customers consuming 2,000 kWh per month and having a monthly demand of less than 50 kW. Include bill comparisons for Non-RPP (retailer) as well. To assess the combined effects of the shift to fixed rates and other bill impacts associated with changes in the cost of distribution service, applicants are to include a total bill impact for a residential customer at the distributor's 10th consumption per centile (In other words, 10% of a distributor's residential customers consume at or less than this level of consumption on a monthly basis). Refer to section 3.2.3 of the Chapter 3 Filling Requirements For Electricity Distribution Rate Applications.

For certain classes where one or more customers have unique consumption and demand patterns and which may be significantly impacted by the proposed rate changes, the distributor must show a typical comparison, and provide an explanation.

Note

- 1. For those classes that are not eligible for the RPP price, the weighted average price including Class B GA through end of May 2020 of \$0.1368/kWh (IESO's Monthly Market Report for May 2020) has been used to represent the cost of power. For those classes on a retailer contract, applicants should enter the contract price (plus GA) for a more accurate estimate. Changes to the cost of power can be made directly on the bill impact table for the specific class.
- 2. Please enter the applicable billing determinant (e.g. number of connections or devices) to be applied to the monthly service charge for unmetered rate classes in column N. If the monthly service charge is applied on a per customer basis, enter the number "1". Distributors should provide the number of connections or devices reflective of a typical customer in each class.

Note that cells with the highlighted color shown to the left indicate quantities that are loss adjusted.

Table 1

APPENDIX E

2021 GA Analysis Workform

Version 1.9

Account 1589 Global Adjustment (GA) Analysis Workform

| Input cells | |
|-----------------|--------------------------|
| Drop down cells | |
| | |
| Utility Nar | ne PUC DISTRIBUTION INC. |

Note 1

For Account 1589,

- a) If the account was last approved on a final basis, select the year that the balance was last approved on a final basis.
- b) If the account was last approved on an interim basis, and
 - i) there are no changes to the previously approved interim balances, select the year that the balances were last approved for diposition on an interim basis. OR
- ii) there are changes to the previously approved interim balances, select the year that the balances were last approved for disposition on a final basis. An explanation should be provided to explain the reason for the change in the previously approved interim balances.

(e.g. If 2017 balances reviewed in the 2019 rate application were to be selected, select 2017)

Instructions:

1) Determine which scenario above applies (a, bi or bii). Select the appropriate year to generate the GA Analysis Workform tabs and the Principal Adjustments tab.

For exampl

- Scenario a -lf 2018 balances were last approved on a final basis Select 2018 and a GA Analysis Workform for 2019 will be generated.
- Scenario bi If 2018 balances were last approved on an interim basis and there are no changes to 2018 balances Select 2018 and a

Analysis Workform for 2019 will be generated.

- Scenario bii If 2018 balances were last approved on an interim basis, there are changes to 2018 balances, and 2017 balances were last.
- approved for disposition Select 2017 and GA Analysis Workforms for 2018 and 2019 will be generated.
- 2) Complete the GA Analysis Workform for each year generated.
- 3) Complete the Principal Adjustments tab. Note that the number of years that require principal adjustment reconciliations are all shown in one Principal Adjustments tab, depending on the year selected on the Information Sheet.

| Note 2 | Consumption Data Excluding for Loss Factor (Data to agree with RRR as applicable) | |
|--------|---|--|
| | | |

| Year | | 2017 | | |
|-----------------------------|---------|-------------|-----|-------|
| Total Metered excluding WMP | C = A+B | 622,542,513 | kWh | 100% |
| RPP | A | 391,333,853 | kWh | 62.9% |
| Non RPP | B = D+E | 231,208,661 | kWh | 37.1% |
| Non-RPP Class A | D | 13,841,829 | kWh | 2.2% |
| Non-RPP Class B* | E | 217,366,832 | kWh | 34.9% |

2017

*Non-RPP Class B consumption reported in this table is not expected to directly agree with the Non-RPP Class B Including Loss Adjusted Billed Consumption in the GA Analysis of Expected Balance table below. The difference should be equal to the loss factor.

| Note 3 GA Billing Rate |
|------------------------|
|------------------------|

GA is billed on the 1st Estimate Please confirm that the same GA rate is used to bill all customer classes. If not, please provide further details Please confirm that the GA Rate used for unbilled revenue is the same as the one used for billed revenue in any paticular month

Notes

The "Transaction" column in the DVA Confinutly Schedule is to equal the transactions in the general ledger (excluding transactions relating to the removal of approved disposition amounts as that is shown in a separate column in the DVA Confinutly Schedule)
2) Any principal adjustments needed to adjust the transactions in the general ledger to the amount that should be requested for disposition should be above an expertably in the "Transical Adjustments" column of the DVA Confinutly Schedule
3) The "Variance RRW. 2019 Bilance" column should expend principal adjustments made in the current disposition period. It should not be impacted by reversals from prior year approved principal adjustments made in the current disposition period. It should not be impacted by reversals from prior year approved principal adjustments.

Complete the table below for the current disposition period. Complete a table for each year included in the balance under review in this rate application. Th

2021 IRM Checklist

2021 IRM Checklist

PUC Distribution Inc. EB-2020-0051

Filing Requirement
Page # Reference
October 13, 2020

| Page # Reference | | Evidence Reference, Notes |
|---|--|---------------------------------------|
| IRM REQUIREMENTS | | Evidence Reference, Notes |
| 3.1.2 Components of the Application Filing | | |
| 3 | Manager's summary documenting and explain all rate adjustments requested | Yes |
| 4 | Contact info - primary contact may be a person within the applicant's organization other than the primary license contact Completed Rate Generator Model and supplementary work forms, Excel and PDF | Yes Appendix D |
| 4 | Completed Vade Generation woder and supplementary work forms, Excer and PDF Current tariff sheet, PDF | Appendix B |
| 4 | Supporting documentation (e.g. relevant past decisions, RRWF etc.) | N/A |
| 4 | Statement as to who will be affected by the application, specific customer groups affected by particular request Applicant's internet address | Yes |
| 4 | Applicant's internet address Statement confirming accuracy of billing determinants pre-populated in model | Yes Yes |
| 4 | Text searchable PDF format for all documents | Yes |
| 4 | An Excel version of the IRM Checklist | Yes |
| 3.1.3 Applications and Electronic Models 5 | Populated GA Analysis Workform | Appendix E |
| 5 | If required, for distributors seeking revenue to cost ratio adjustments due to previous OEB decision, the Revenue to Cost Ratio Adjustment | N/A |
| | Workform must be filed | INA |
| 5 | For an incremental or pre-approved advanced capital module (ICM/ACM) cost recovery and associated rate rider(s), a distributor must file the Capital Module Applicable to ACM and ICM | N/A |
| _ | and distributor seeking to dispose of lost revenue amounts from conservation and demand management activities, during an IRM term, must | N/A |
| 5 | file the Lost Revenue Adjustment Mechanism Variance Account (LRAMVA) Workform | N/A |
| 5 | Account 1595 Analysis Workform - for distributors who meet the requirements for disposition of residual balances in 1595 sub-accounts | N/A - Not requesting disposition |
| 3.2.2 Revenue to Cost Ratio Adjustments 7 | Completed revenue-to-cost ratio adjustment workform to adjust the revenue-to-cost ratio if previously approved by the OEB | N/A |
| 3.2.3 Rate Design for Residential Electricity Customers | | |
| Residential Rate Design - Exceptions and Mitigation (applica | ble only to distributors that have not completed the rate design transition) | Transition to fully fixed residential |
| 7 | If the total bill impact of the elements proposed in the application is 10% or greater for RPP customers consuming at the 10th percentile, a | rate is completed in Year 2019 |
| 7 | distributor must file a plan to mitigate the impact for the whole residential class or indicate why such a plan is not required Mitigation plan if total bill increases for any customer class exceed 10% | N/A |
| 3.2.4 Electricity Distribution Retail Transmission Service Rate | s No action required at filing - model completed with most recent uniform transmission rates (UTRs) approved by the OEB | 19/1 |
| 3.2.5 Review and Disposition of Group 1 DVA Balances | h. W | 21/2 |
| 9 10 | Justification if any account balance in excess of the threshold should not be disposed Completed tab 3 - continuity schedule in Rate Generator Model | N/A Yes |
| 10 - 11 | Explanation of variance between amounts proposed for disposition and amounts reported in RRR for each account | Yes |
| | Statement as to whether any adjustments have been made to balances previously approved by the OEB on a final basis | |
| 10 - 11 | If yes, explanations provided for the nature and amounts of the adjustments and supporting documentation under a section titled | Yes |
| 11 | "Adjustments to Deferral and Variance Accounts Propose rate riders for recovery or refund of balances that are proposed for disposition. The default disposition period is one year; if the | |
| | applicant is proposing an alternative recovery period must provide explanation. | Yes |
| 12 | GA rate riders calculated on an energy basis (kWh) | Yes |
| 3.2.5.1 Wholesale Market Participants | Catabilish apparets sate video to recover belongs in the DCVA's from Maylet Destining to the protected the DCVA belongs | |
| 11 | Establish separate rate riders to recover balances in the RSVA's from Market Participants who must not be allocated the RSVA balances related to charges for which the WMP's settle directly with the IESO. | N/A |
| 3.2.5.2 Global Adjustment | | |
| 12 | Establishment of a separate rate rider included in the delivery component of the bill that would apply prospectively to Non-RPP Class B | Yes |
| | customers when clearing balances from the GA Variance Account For each year that the accumulated balance of Account 1589 has not been disposed, regardless of whether or not distributors are seeking | |
| 12 - 13 | disposition of Group 1 accounts in the current proceeding, all distributors are required to file the GA Analysis Workform in live Excel format | Yes |
| | and explain discrepancies. | |
| 3.2.5.3 Commodity Accounts 1588 and 1589 | | |
| 13 | Confirm as part of its application that it has fully implemented the OEB's February 21, 2019 guidance effective from January 1, 2019. | Yes |
| | Confirmation that historical balances that have yet to be disposed on a final basis have been considered in the context of the Feb. 21, 2019 | |
| 13 - 14 | accounting guidance, and provide a summary of the review performed. Distributors must also discuss the results of review, whether any | Yes |
| 10 - 14 | systemic issues were noted, and whether any material adjustments to the account balances have been recorded. A summary and | 165 |
| | description of each adjustment made to the historical balances must be provided in the application. Certification by the CEO, CFO or equivalent that distributor has robust processes and internal controls in place for the preparation, review, | |
| 15 | verification and oversight of account balances being proposed for disposition | Yes |
| 3.2.5.4 Capacity Based Recovery (CBR) | | |
| | Proposed disposition of Account 1580 sub-account CBR Class B in accordance with the OEB's CBR Accounting Guidance. | |
| | - embedded distributors who are not charged CBR (therefore no balance in sub-account CBR Class B) must indicate this is the case for | |
| | them - In the DVA continuity schedule, applicants must indicate whether they serve any Class A customers during the period where Account 1580 | |
| 15 | The EVA Continuity screeding applicants interest interest they serve any class A customers during the period where Account 1900 CBR Class B sub-account balance accumulated. | Yes |
| | - Account 1580 sub-account CBR Class A is not to be disposed through rates proceedings but rather follow the OEB's accounting guidance. | |
| | - The DVA continuity schedule will allocate the portion of Account 1580 sub-account CBR Class B allocated to customers who transitioned | |
| | between Class A and Class B based on consumption levels | |
| 3.2.6 Lost Revenue Adjustment Mechanism Variance Accoun | t | |
| | requests for remaining amounts related to CFF activity. An application for lost revenues should include: Participation and Cost reports in | |
| | Excel format, made available by the IESO. An application for lost revenues should also provide the following: | |
| | An application for lost revenues smould also provide the following. - statement identifying the year(s) of new lost revenues and prior year savings persistence claimed in the LRAMVA disposition | |
| | - statement confirming LRAMVA based on verified savings results supported by the distributors final CDM Report and Persistence Savings | |
| | Report (both filed in Excel format) and a statement indicating use of most recent input assumptions when calculating lost revenue | |
| | - summary table with principal and carrying charges by rate class and resulting rate riders - statement providing the disposition period; rationale provided for disposing the balance in the LRAMVA if one or more classes do not | |
| | - statement providing the disposition period, rationale provided for disposing the balance in the ERAMVA if one of more classes do not generate significant rate riders | |
| | - statement confirming LRAMVA reference amounts, rationale for the distributors circumstances if LRAMVA threshold not used | |
| | - rationale confirming how rate class allocations for actual CDM savings were determined by class and program (Tab 3-A of LRAMVA Work | |
| | Form) - statement confirming whether additional documentation was provided in support of projects that were not included in distributors final CDM | |
| | Annual Report (Tab 8 of LRAMVA Work Form as applicable) | |
| 16 - 21 | - for a distributor's streetlighting project(s) which may have been completed in collaboration with local municipalities, the following must be | N/A - no disposition is requested |
| | provided: Explanation of the methodology to calculate streetlighting savings; Confirmation whether the streetlighting savings were calculated | with this rate application |
| | in accordance with OEB-approved load profiles for streetlighting projects; Confirmation whether the streetlighting project(s) received funding from the IESO and the appropriate net-to-gross assumption used to calculate streetlighting savings | |
| | | |
| | For the recovery of lost revenues related to demand savings from street light upgrades, distributors should provide the following information: | |
| | o Explanation of the forecast demand savings from street lights, including assumptions built into the load forecast from the last CoS application | |
| | o Confirmation that the street light upgrades represent incremental savings attributable to participation in the IESO program, and that any | |
| | savings not attributable to the IESO program have been removed (for example, other upgrades under normal asset management plans) | |
| | o Confirmation that the associated energy savings from the applicable IESO program have been removed from the LRAMVA workform so | |
| | as not to double count savings (for example, if requesting lost revenue recovery for the demand savings from a street light upgrade program, the associated energy savings from the Retrofit program have been subtracted from the Retrofit total) | |
| | o Confirmation that the distributor has received reports from the participating municipality that validate the number and type of bulbs | |
| | replaced or retrofitted through the IESO program | |
| | o A table, in live excel format, that shows the monthly breakdown of billed demand over the period of the street light upgrade project, and the | |
| | detailed calculations of the change in hilled demand due to the street light upgrade project (including date on number of hulbs him of hulb | |

2021 IRM Checklist

PUC Distribution Inc. EB-2020-0051

Filing Requirement Date: October 13, 2020

| Page # Reference | | Foldense Before a 2011 |
|--|--|--|
| NA DECUIPEMENTO | | Evidence Reference, Note |
| M REQUIREMENTS | | |
| 3.2.7 Tax Changes 21 | Kanilahi, the Sada (Dr. Carata Mali Lands) | |
| 21 | If applicable, tabs 8 and 9 of Rate Generator Model complete | |
| 21 | If one or more customer classes does not generate a rate rider to the fourth decimal place, a proposal that the entire 50/50 sharing amount will be transferred to Account 1595 for disposition at a future date | |
| 0.0.0.7 Faster Olalina Br. 00.04 | will be transierred to Account 1595 for disposition at a future date | |
| 3.2.8 Z-Factor Claims, Pg. 20-21 23 | Evidence that costs incurred meet criteria of need, materiality and prudence - see 3rd Generation IRM Report | |
| 23 | Evidence that costs incurred meet chiefla of need, materiality and proderice - see sits Generation fixin Report In addition distributor must: | |
| | - Notify OEB by letter of all Z-Factor events within 6 months of event (Confirm that letter is on file) | |
| 23 | - Apply to OEB for any cost recovery of amounts in OEB-approved deferral account claimed under Z-Factor treatment | |
| 23 | - Demonstrate that distributor could not have been able to plan or budget for the event and harm caused is genuinely incremental | |
| | - Demonstrate that costs incurred within a 12-month period and are incremental to those already being recovered in rates as part of ongoing | |
| 3.2.8.2 Z-Factor Accounting Treatment | business exposure risk | |
| 3.2.8.2 Z-Factor Accounting Treatment | Eligible Z-factor cost amounts recorded in Account 1572, Extraordinary Event Costs, of the OEB's USoA contained in the Accounting | |
| 23 | Engine 2-hadro dos amounts recorded in Accounting procedures Handbook (APH) for electricity distributors. | N/A |
| | Carrying charges are calculated using simple interest applied to the monthly opening balances in the account and recorded in a separate | 21/2 |
| 23 | Sub-Account of this account | N/A |
| 3.2.8.3 Recovery of Z-Factor Costs | | |
| 24 | Description of manner in which distributor intends to allocate incremental costs, including rationale for approach and merits of alternative | N/A |
| | allocation methods Specification of whether rate rider(s) will apply on fixed or variable basis, or combination; length of disposition period and rational for | |
| 24 | specification of whether rate friends) will apply on fixed of variable basis, of combination, length of disposition period and rational for proposal | N/A |
| 24 | proposal Residential rider on fixed basis | N/A |
| 24 | Detailed calculation of incremental revenue requirement and resulting rate rider(s) | N/A |
| 3.3.1 Advanced Capital Module | | |
| 25 | Evidence of passing "Means Test" | N/A |
| 25 | Information on relevant project or projects updated cost projections, confirmation that the project or projects are on schedule to be | N/A |
| | completed as planned and an updated ACM/ICM module in Excel format | |
| 25 | If proposed recovery differs significantly from pre-approved amount, a detailed explanation is required as to why | N/A |
| 25 | If updated cost projects are 30% greater than pre-approved amount, distributor must treat project as new ICM, re-filed business case and | N/A |
| | other relevant material required | |
| 3.3.2 Incremental Capital Module | | |
| 3.3.2.1 ICM Filing Requirements | | |
| | The following should be provided when filing for incremental capital: | N/A |
| 27 | An analysis demonstrating that the materiality threshold test has been met and that the amounts will have a significant influence on the operation of the distributor | N/A |
| | Usuffication that the amounts to be incurred will be prudent - amounts represents the most cost-effective option (but not necessarily the leas | |
| 27 | initial cost) for ratepayers | N/A |
| 27 | Justification that amounts being sought are directly related to the cause, which must be clearly outside of the base upon which current rates | N/A |
| 21 | were derived | N/A |
| 27 - 28 | Evidence that the incremental revenue requested will not be recovered through other means (e.g., it is not, in full or in part, included in base | N/A |
| | rates or being funded by the expansion of service to include new customers and other load growth) | |
| 28 | Details by project for the proposed capital spending plan for the expected in-service year | N/A |
| 28 | Description of the proposed capital projects and expected in-service dates | N/A |
| 28 | Calculation of the revenue requirement (i.e. the cost of capital, depreciation, and PILs) associated with each proposed incremental capital project | N/A |
| | project. Calculation of each incremental project's revenue requirements that will be offset by revenue generated through other means (e.g. customer | |
| 28 | contributions in aid of construction) | N/A |
| 28 | Description of the actions the distributor would take in the event that the OEB does not approve the application | N/A |
| | Calculation of a rate rider to recover the incremental revenue from each applicable customer class. The distributor must identify and provide | |
| 28 | a rationale for its proposed rider design, whether variable, fixed or a combination of fixed and variable riders. As discussed at section 3.2.3, | N/A |
| 20.000 | any new rate rider for the residential class must be applied on a fixed basis | |
| 3.3.5 Off-Ramps | A distributor who a parties are in suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points) but provided as a visit in the suggest of the dead hand (i.e. 200 begin points). | |
| 33 - 34 | A distributor whose earnings are in excess of the dead band (i.e. 300 basis points) but nevertheless applies for an increase to its base rates an explanation to substantiate its reasons for doing so required | N/A |
| Appendix A | un explanation to substitutive its reasons for using so required | |
| - трэнжи | Confirm disposition of positival belongs for vistors have at 4505 | Van these amounts to |
| Ammondis A | Confirm disposition of residual balances for vintage Account 1595 have only been done once - distributors expected to seek disposition of the balance a year after a rate rider's sunset date has expired. No further dispositions of these accounts are generally expected unless | Yes, these amounts have be disposed only once at the time |
| Appendix A | the balance a year after a rate noer's sunset date has expired. No further dispositions or these accounts are generally expected unless justified by the distributor | received approval from the O |
| | • | |
| Annondiy A 9 Page F | Distributors who meet the requirements for disposition of residual balances of Account 1595 sub-accounts, must complete the 1595 Analysis | NI/A |
| Appendix A & Page 5 | Workform. Account 1595 sub-accounts are eligible for disposition when one full year has elapsed since the associated rate riders' sunset dates have expired and the residual balances have been externally audited. | N/A |
| | Material residual balances will require further analysis, consisting of separating the components of the residual balances by each applicable | |
| | rate rider and by customer rate class. Distributors are expected to provide detailed explanations for any significant residual balances | A1/A |
| A ** • | | |
| Appendix A | attributable to specific rate riders for each customer rate class. Explanations must include for example, volume differences between forecast | N/A |
